

Product Range

Concrete chemicals

- Retarders
- Air-entraining agents
- Accelerative admixtures
- Plasticizers
- Accelerating additives for winter concrete
- Stabilizer, crystalline admixture, anti-shrinkage, swelling and flotation agents

Production machinery, mould systems and accessories for concrete industry

- For ready-mix concrete, concrete elements and products
- Fiber dosing system

Injection resins and accessories

- Crack and hose injection resins
- Injection hoses
- Injection pumps, plugs and flanges

Curing agents

- For all concrete surfaces
- Also for early curing

Protective agents for machinery

- For mixers, pumps, transportation equipment etc.

Fixing details

- Elevator lifting loops
- Anchor channels
- Consoles for supporting stair slabs
- Brickwork support systems
- Fixing anchors
- Tension rod systems
- Lightning protection
- Attachment point PSA

Fibers

- Glass fibers
- Polypropylene and polymer fibers

Sealing and waterproofing solutions

- Sealings for concrete pipes
- Coupling sleeves
- Pipe and cable ducting systems
- Sealing tapes for water and sewer systems

Dry screens and floor screedings

- Dry screens
- Cement based floor screedings
- Fast hardening screeds

Expansion joints for floors

- For concrete floors and slabs
- Expansion joint dowels
- For renewing expansion joints in floors
- Waterproof expansion joints

Mould release agents

- Wide range of solvent based and biodegradable mould release agents and waxes

Formwork systems

- Moulds for concrete columns

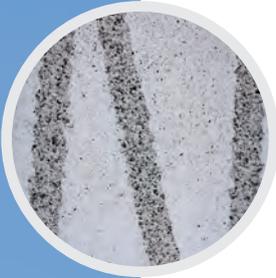

Lifting anchor systems and accessories

- Elevator lifting loops
- Lifting anchors
- Accessories for lifting and installation

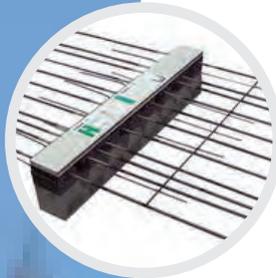

Surface treatment agents

- Protective agents for concrete surfaces
- Dust binders

Surface retarders and acidification agents

- Several product ranges for exposed wash finish concrete surfaces

Reinforcement systems

- Reinforcement connections
- Punching shear reinforcements
- Insulated balcony connectors
- Connectors for reinforced concrete components
- Construction joint mesh
- Wall joint systems

Cements ja substitute materials

- White cement
- Silica
- Aluminate cement

Product Range

Bridge and asphalt sealants

- Joint sealants

Adhesion promoter agents

- For concrete surfaces

Inspection and quality control equipment

- For concrete production and structures

Waterproofing and sealing solutions

- Pipe and cable ducting systems for concrete structures
- PVC-construction and expansion joint tapes
- Hydrophilic swelling strips
- Construction and crack control sealing systems

Color pigments

- For coloring of concrete and mortar

At your service

HIGH-QUALITY PRODUCTS

- ETA-approvals
- CE-certifications
- BY, Finland, declarations of conformity
- Quality control: Kiwa Inspecta

FAST DELIVERIES

- Fast daily deliveries from own stock
- Our customer service is available:

tilauspalvelu@semtu.fi
+358 9 2747 9565

TECHNICAL SUPPORT

- For structural engineering
- For choosing and using the products
