# SECTION 2: HAZARDS IDENTIFICATION \*\*

# 2.1 Classification of the substance or mixture:

# CLP Regulation (EC) No 1272/2008:

Classification of this product has been carried out in accordance with CLP Regulation (EC) No 1272/2008.

Aquatic Chronic 3: Hazardous to the aquatic environment, long-term hazard, Category 3, H412

Eye Dam. 1: Serious eye damage, Category 1, H318 Skin Sens. 1A: Sensitisation, skin, Category 1A, H317

# 2.2 Label elements:

semtu

# CLP Regulation (EC) No 1272/2008:

Danger

#### Hazard statements:

Aquatic Chronic 3: H412 - Harmful to aquatic life with long lasting effects. Eye Dam. 1: H318 - Causes serious eye damage. Skin Sens. 1A: H317 - May cause an allergic skin reaction.

#### **Precautionary statements:**

P261: Avoid breathing vapours.

P264: Wash thoroughly after handling.

P273: Avoid release to the environment.

P280: Wear protective gloves/protective clothing/respiratory protection/eye protection/protective footwear.

P333+P313: If skin irritation or rash occurs: Get medical advice/attention.

P362+P364: Take off contaminated clothing and wash it before reuse.

P501: Dispose of the contents/containers in accordance with the current legislation on waste treatment.

# Supplementary information:

Contains Reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1).

# Substances that contribute to the classification

Sulfuric acid, mono-C12-14-alkyl esters, sodium salts; Butanedioic acid, sulfo-, C-(2-coco amidoethyl) esters, disodium salts; octhilinone (ISO)

# 2.3 Other hazards:

Product does not meet PBT/vPvB criteria Endocrine-disrupting properties: The product does not meet the criteria.

# SECTION 4: FIRST AID MEASURES

#### 4.1 Description of first aid measures:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product. By inhalation:

This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific

legislation

# SemAir 102

#### Date of compilation: 28/12/2020 Revis

semtu

Revised: 30/01/2024

Version: 3 (Replaced 2)

# SECTION 4: FIRST AID MEASURES (continued)

This product is not classified as hazardous through inhalation. However, in case of intoxication symptoms it is recommended to remove the person affected from the area of exposure, provide clean air and keep at rest. Request medical attention if symptoms persist.

# By skin contact:

May cause an allergic skin reaction. In case of contact it is recommended to clean the affected area thoroughly with water and neutral soap. In case of changes on the skin (stinging, redness, rashes, blisters,...), seek medical advice with this Safety Data Sheet

# By eye contact:

Rinse eyes thoroughly with lukewarm water for at least 15 minutes. Do not allow the person affected to rub or close their eyes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, in which case this could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the SDS of the product.

# By ingestion/aspiration:

Do not induce vomiting, but if it does happen keep the head down to avoid aspiration. Keep the person affected at rest. Rinse out the mouth and throat, as they may have been affected during ingestion.

# 4.2 Most important symptoms and effects, both acute and delayed:

Acute and delayed effects are indicated in sections 2 and 11.

# 4.3 Indication of any immediate medical attention and special treatment needed:

Non-applicable

# SECTION 5: FIREFIGHTING MEASURES

# 5.1 Extinguishing media:

# Suitable extinguishing media:

Product is non-flammable under normal conditions of storage, handling and use. In the case of combustion as a result of improper handling, storage or use preferably use polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems.

# Unsuitable extinguishing media:

Non-applicable

# 5.2 Special hazards arising from the substance or mixture:

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

# 5.3 Advice for firefighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and self-contained breathing apparatus (SCBA). Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...) in accordance with Directive 89/654/EC.

# Additional provisions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Eliminate all sources of ignition. In case of fire, cool the storage containers and tanks for products susceptible to combustion, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

# SECTION 6: ACCIDENTAL RELEASE MEASURES

# 6.1 Personal precautions, protective equipment and emergency procedures:

# For non-emergency personnel:

Isolate leaks provided that there is no additional risk for the people performing this task. Personal protection equipment must be used against potential contact with the spilt product (See section 8). Evacuate the area and keep out those who do not have protection.

#### For emergency responders:

Wear protective equipment. Keep unprotected persons away. See section 8.

# 6.2 Environmental precautions:

This SDS is an English translation of COMMISSION REGULATION (EU) 2020/878, without any country-specific

legislation

# SemAir 102

# Date of compilation: 28/12/2020

semtu

Revised: 30/01/2024

Version: 3 (Replaced 2)

# SECTION 6: ACCIDENTAL RELEASE MEASURES (continued)

Avoid at all cost any type of spillage into an aqueous medium. Contain the product absorbed appropriately in hermetically sealed containers. Notify the relevant authority in case of exposure to the general public or the environment.

# 6.3 Methods and material for containment and cleaning up:

It is recommended:

Absorb the spillage using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents. For any concern related to disposal consult section 13.

# 6.4 Reference to other sections:

See sections 8 and 13.

# SECTION 7: HANDLING AND STORAGE

# 7.1 Precautions for safe handling:

A.- General precautions for safe use

Comply with the current legislation concerning the prevention of industrial risks with regards manually handling weights. Maintain order, cleanliness and dispose of using safe methods (section 6).

B.- Technical recommendations for the prevention of fires and explosions

Product is non-flammable under normal conditions of storage, handling and use. It is recommended to transfer at slow speeds to avoid the generation of electrostatic charges that can affect flammable products. Consult section 10 for information on conditions and materials that should be avoided.

C.- Technical recommendations on general occupational hygiene

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

Due to the danger of this product for the environment it is recommended to use it within an area containing contamination control barriers in case of spillage, as well as having absorbent material in close proximity.

# 7.2 Conditions for safe storage, including any incompatibilities:

A.- Technical measures for storage

Store in a cool, dry, well-ventilated location

B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

# 7.3 Specific end use(s):

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

# SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

# 8.1 Control parameters:

Substances whose occupational exposure limits have to be monitored in the workplace (European OEL, not country-specific legislation):

There are no applicable occupational exposure limits for the substances contained in the product

#### DNEL (Workers):

# 8.2 Exposure controls:

A.- Individual protection measures, such as personal protective equipment

As a preventative measure it is recommended to use basic Personal Protective Equipment, with the corresponding <<CE marking>> in accordance with Regulation (EU) 2016/425. For more information on Personal Protective Equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For more information see subsection 7.1. All information contained herein is a recommendation which needs some specification from the labour risk prevention services as it is not known whether the company has additional measures at its disposal.

# B.- Respiratory protection

| Pictogram                                    | PPE                               | Labelling | CEN Standard        | Remarks   |
|--|-----------------------------------|-----------|---------------------|---|
| Mandatory<br>respiratory tract<br>protection | Filter mask for gases and vapours |           | EN 405:2002+A1:2010 | Replace when there is a taste or smell of the<br>contaminant inside the face mask. If the<br>contaminant comes with warnings it is<br>recommended to use isolation equipment. |

# C.- Specific protection for the hands

| Pictogram                    | PPE                                      | Labelling | CEN Standard | Remarks  |
|------------------------------|--|-----------|--------------|--|
| Mandatory hand<br>protection | Protective gloves against<br>minor risks | CATI      |              | Replace gloves in case of any sign of damage. For<br>prolonged periods of exposure to the product for<br>professional users/industrials, we recommend using<br>CE III gloves in line with standards EN ISO<br>21420:2020 and EN ISO 374-1:2016+A1:2018 |

As the product is a mixture of several substances, the resistance of the glove material can not be calculated in advance with total reliability and has therefore to be checked prior to the application.

# D.- Eye and face protection

|   | Pictogram                    | PPE  | Labelling | CEN Standard                    | Remarks   |
|---|------------------------------|--|-----------|---------------------------------|---|
| 1 | Aandatory face<br>protection | Panoramic glasses against<br>splash/projections. | CAT II    | EN 166:2002<br>EN ISO 4007:2018 | Clean daily and disinfect periodically according to the manufacturer's instructions. Use if there is a risk of splashing. |

#### E.- Body protection

| Pictogram | PPE           | Labelling | CEN Standard | Remarks  |
|-----------|---------------|-----------|--------------|--|
|           | Work clothing | CATI      |              | Replace before any evidence of deterioration. For<br>periods of prolonged exposure to the product for<br>professional/industrial users CE III is<br>recommended, in accordance with the regulations<br>in EN ISO 6529:2013, EN ISO 6530:2005, EN ISO<br>13688:2013, EN 464:1994. |

| SECT    | TION 10: STABILITY AND REACTIVITY   |  |
| SLCI    | TION TO: STADILITT AND REACTIVITT   |  |
| 10.1    | Reactivity:   |  |
|         | No hazardous reactions are expected because the pro<br>Safety Data Sheet. | oduct is stable under recommended storage conditions. See section 7 from |

# 10.2 Chemical stability:

Chemically stable under the indicated conditions of storage, handling and use.

# **10.3** Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

#### **10.4** Conditions to avoid:

Applicable for handling and storage at room temperature:

| Shock and friction | Contact with air | Increase in temperature | Sunlight       | Humidity       |
|--------------------|------------------|-------------------------|----------------|----------------|
| Not applicable     | Not applicable   | Not applicable          | Not applicable | Not applicable |

# 10.5 Incompatible materials:

| Acids              | Water          | Oxidising materials | Combustible materials | Others                        |
|--------------------|----------------|---------------------|-----------------------|-------------------------------|
| Avoid strong acids | Not applicable | Avoid direct impact | Not applicable        | Avoid alkalis or strong bases |

# 10.6 Hazardous decomposition products:

See subsection 10.3, 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide ( $CO_2$ ), carbon monoxide and other organic compounds.

# 11.2 Information on other hazards:

# **Endocrine disrupting properties**

Endocrine-disrupting properties: The product does not meet the criteria.

# **Other information**

Non-applicable

\*\* Changes with regards to the previous version

# SECTION 12: ECOLOGICAL INFORMATION \*\*

The experimental information related to the eco-toxicological properties of the product itself is not available

Harmful to aquatic life with long lasting effects.

# 12.1 Toxicity:

#### Acute toxicity:

| Identification  | Concentration |                      | Species                 | Genus      |
|---|---------------|----------------------|-------------------------|------------|
| Sulfuric acid, mono-C12-14-alkyl esters, sodium salts   | LC50          | 3,6 mg/L (96 h)      | Oncorhynchus mykiss     | Fish       |
| CAS: 85586-07-8   | EC50          | 4,7 mg/L (48 h)      | Daphnia magna           | Crustacean |
| EC: 287-809-4   | EC50          | 20 mg/L (72 h)       | Desmodesmus subspicatus | Algae      |
| octhilinone (ISO)   | LC50          | >0.1 - 1 mg/L (96 h) |                         | Fish       |
| CAS: 26530-20-1   | EC50          | >0.1 - 1 mg/L (48 h) |                         | Crustacean |
| EC: 247-761-7   | EC50          | >0.1 - 1 mg/L (72 h) |                         | Algae      |
| Reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-<br>methyl-2H-isothiazol-3-one (3:1) | LC50          | >0.1 - 1 mg/L (96 h) |                         | Fish       |
| CAS: 55965-84-9   | EC50          | >0.1 - 1 mg/L (48 h) |                         | Crustacean |
| EC: Non-applicable  | EC50          | >0.1 - 1 mg/L (72 h) |                         | Algae      |

#### **Chronic toxicity:**

| Identification  | Concentration |                | Species             | Genus |
|---|---------------|----------------|---------------------|-------|
| Sulfuric acid, mono-C12-14-alkyl esters, sodium salts | NOEC          | 1,357 mg/L     | Pimephales promelas | Fish  |
| CAS: 85586-07-8 EC: 287-809-4                         | NOEC          | Non-applicable |                     |       |

# 12.2 Persistence and degradability:

# Substance-specific information:

| Identification  | Degra    | adability      | Biodegradability |          |
|---|----------|----------------|------------------|----------|
| Sulfuric acid, mono-C12-14-alkyl esters, sodium salts | BOD5     | Non-applicable | Concentration    | 3.5 mg/L |
| CAS: 85586-07-8                                       | COD      | Non-applicable | Period           | 28 days  |
| EC: 287-809-4   | BOD5/COD | Non-applicable | % Biodegradable  | 95 %     |

| EC: 287-809-4   | Surface tension | 2,99E-2 N/m (23 °C) | Moist soil | Non-applicable |

# 12.5 Results of PBT and vPvB assessment:

Product does not meet PBT/vPvB criteria

# 12.6 Endocrine disrupting properties:

Endocrine-disrupting properties: The product does not meet the criteria.

# 12.7 Other adverse effects:

Not described

#### \* Changes with regards to the previous version

# SECTION 13: DISPOSAL CONSIDERATIONS

#### **13.1 Waste treatment methods:**

| Code  | Description | Waste class (Regulation (EU) No<br>1357/2014) |
|---|-------------|---|
| It is not possible to assign a specific code, as it depends on the intended use by the user |             | Hazardous                                     |

# Type of waste (Regulation (EU) No 1357/2014):

HP14 Ecotoxic

# Waste management (disposal and evaluation):

Consult the authorized waste service manager on the assessment and disposal operations in accordance with Annex 1 and Annex 2 (Directive 2008/98/EC). As under 15 01 (2014/955/EC) of the code and in case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-hazardous residue. Waste should not be disposed of to drains. See paragraph 6.2.

#### **Regulations related to waste management:**

In accordance with Annex II of Regulation (EC) No 1907/2006 (REACH) the community or state provisions related to waste management are stated

Community legislation: Directive 2008/98/EC, 2014/955/EU, Regulation (EU) No 1357/2014

# SECTION 14: TRANSPORT INFORMATION

This product is not regulated for transport (ADR/RID,IMDG,IATA)

# SECTION 15: REGULATORY INFORMATION

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

Regulation (EC) No 528/2012: contains a preservative to protect the initial properties of the treated article. Contains octhilinone (ISO), Reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1).

Candidate substances for authorisation under the Regulation (EC) No 1907/2006 (REACH): Non-applicable

Substances included in Annex XIV of REACH ("Authorisation List") and sunset date: Non-applicable

Regulation (EC) No 1005/2009, about substances that deplete the ozone layer: Non-applicable

Article 95, REGULATION (EU) No 528/2012: octhilinone (ISO) (Product-type 6, 7, 8, 9, 10, 11, 13) ; Reaction mass of 5-chloro-2methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1) (Product-type 2, 4, 6, 11, 12, 13)

The information contained in this safety data sheet is based on sources, technical knowledge and current legislation at European and state level, without being able to guarantee its accuracy. This information cannot be considered a guarantee of the properties of the product, it is simply a description of the security requirements. The occupational methodology and conditions for users of this product are not within our awareness or control, and it is ultimately the responsibility of the user to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information on this safety data sheet only refers to this product, which should not be used for needs other than those specified.
